

**[10-09-20-T21]**  
*Homework assignment*

---

[1] Keep working on Question #11b from problem set [10-08-31-MAM21]. I might add that you may assume  $n > r$ , just like in part (a) of problem 11.

[2] How many 6-letter "words" can be made by using all the letters of the word PEPPER?
